

The ARIAH Foundation Fundraising Landscape Analysis, August 2023

Brandon Morris

Brandon has spent the last 10+ years in biopharma agencies, most recently at McCann Health, where he held a number of leadership roles across commercial organizations including client services and account strategy. Earlier in his career, Brandon served underaged/underserved students as an internship coordinator and program director for Episcopal Social Services/Sheltering Arms . When not working to improve health outcomes, Brandon can be found on a trail running when he gets the chance, spending time with his sons on the baseball field, or spending time in with his family in North Carolina. Brandon earned an MPA from Norwich University, and a BA in Economics from Norfolk State University.
